THE LATEST AND BEST. Will be published on Thursday morning, Sept. 24st-MABEL THE ACTRESS: OR, THE PERILS OF ILLICIT LOVE.

OR, THE PERILS OF ILLICIT LOVE.

It is a tale of passion and of guilt; but such is the power with which it is told—the truth and exnestness of the style—the fidelity to nature and to life of all its incidents—and its effect freedom from every thing; that might offend the most virtuous taste, that none who real it could be disposed to exclude it from the most refined femily circle. The motto from Lord Bacon is a fair exponent of the moral conveyed. Well would it be for our youth of both seves if the lesson should sink deep into their hearts; for its aim is to show, that—The only amaranthine flower on earth.

Is Virtue—the only insting treasure, Truth. Single copies 121 cents, or 10 for \$1\$, \$3\$ per 189. Agents will send in their orders without delay.

The Heads of Hair.—Barry's Ventilating and Gossamer Invisible Wig so closely resembles the real head of hair that sceptics and connoisseurs have pronounced it the most perfect and extraordinary invention of the day. The great advantage of this novel and unique Wig is its being made without sewing or weaving, which causes its appearance so closely to resemble the natural hair both in lightness and natural appearance, as to defy detection, its texture being so beautiful, so porous and so free that in all cases of perspiration exaporation is unimpeded, and the great evils of all other Wigs entirely avoided. The sceptic and connoisseur are alike invited to inspect this novel and beautiful Wig and the peculiar method of fitting the head, at the sole inventor 1 nd manufacturer's A. C. TINNED LEADEN PIRES, for preventing water and other fluids that pass through them from being impregnated with the poisonous solutions of Lead.—The danger arising from drinking water and other fluids, when retained in or transmitted through feaden tubes has frequently been proclaimed by physicians and chemists both in the United States and Europe. Numerous chronic diseases and lineering deaths from this source have been recorded. The large and increasing consumption of lead in conduits for water, and the very extensive use of it in beer and cider pumps, renders it expedient that its deleterious qualities should be known.

Families about having the Croton Water introduced into their houses, are informed that timined pipe may now be obtained at about the same price which was formerly charged for lead pipe. The timed lead pipe is admitted by all disinterested persons to be the safest, cheapest and best article which can be used.

The project of opening a new and spacious Salson at the American Museum, as a PERPFTUAL FAIR or BAZAAR, for the Exhibition and SALE of Goods, Wares, Merchandize, &c has proved highly successful. The following persons have already made deposites in this Fair, and as nearly all the articles are FOR SALE, Merchants and others will find it to their interest to make their purchases through this medium. STEEL PENS—To those who shall make choice of Pens of our manufacture for the first time, it is recommended to try one at least of several kinds, not more as a means of enabling the purchaser to select that pen which best suits his or her hand, than as an act of justice to the manufacturers. We have more than once suffered injury from a hasty decision based upon a trial of a single pen, of the kind, perhaps, the very opposite in all its properties to that which should have been selected.
